

Mica-Tech, Inc. Tames Accounting Nightmare

Software Arts' QuickBooks export module allows for one button export of accounting data from pc/MRP's MRP Inventory system into QuickBooks.

Using the power of pc/MRP and QuickBooks has eliminated our reliance on manual inventory control systems and has simplified how we manage our accounting processes.

Customer Profile

Mica-Tech occupies a unique position in the fields of automatic electric grid control and ubiquitous secure communication. Our goal is to enhance that position by continuing to provide the highest level of engineering expertise and responsiveness to our customers.

Our UltraSatNet system provides electric utilities with the ability to optimize the use of their distribution resources while providing a fail safe way to prevent rolling blackouts.

Our UltraSatNet system also provides an uninterruptible, secure and reliable communication link between first responders in emergency situations, between central monitoring locations and remote sites for security control and monitoring, and other similar scenarios.

Business Challenge

As a new company in 2002, we used QuickBooks for our financial accounting and a manual system for inventory accounting. As our company grew and the number of parts required for new products increased, we found that our manual system could not keep up with our requirements on a timely basis.

Solution Overview

We reviewed several inventory managements systems before choosing Software Arts' pc/MRP program, which we found to provide the functionality and support we need at a favorable cost. Our ability to upload pc/MRP transactions to QuickBooks greatly simplifies the clerical effort required to keep our records current.

Business Benefits

With a few keystrokes we are now able to immediately ascertain critical purchasing and inventory information and generate the operational and financial reports we need. In short, the link between pc/MRP and QuickBooks helps Mica-Tech to maintain its position as a leading edge company.

SUCCESS STORY

Mica-Tech, Inc.

AT A GLANCE:

Customer:

Mica-Tech, Incorporated

Location:

Camarillo, CA

Industry:

Manufacturing
