

Simple. Streamlined. Paperless.

Success Story: Next Café

Location: South Beach, Florida

Industry: Restaurant

The Challenge: Keeping up with an ever-increasing amount of paper documents for a high-volume restaurant with little office space and plans for expansion.

The Solution: PaperSavePlus for QuickBooks® to scan all paper and electronic documents for instant storage and retrieval.

Results: Next Café now securely accesses all source documents on-screen, saving time, space and money.

PaperSavePlus saves us an incredible amount of time—and time is money.

We can now find information instantly on-screen, inside QuickBooks® without searching through filing cabinets.

Paperless is a Reality for South Beach's Next Café

Next Café operates a high-volume, full-service restaurant on world-renowned Lincoln Road in South Beach, Florida. Ready to expand to a second location, Next's small office was overloaded with paper documents.

Employee time spent filing was excessive and inefficient, and acquiring additional office and storage space could not be justified in expensive, prime retail space.

In less than an hour, Next Café implemented PaperSavePlus for QuickBooks® to scan and store vendor and employee records.

Next Café can now expand to new locations, knowing that information from its restaurants will be readily accessible in existing office space.

PaperSavePlus Benefits

- Paper documents are scanned and stored natively within QuickBooks.
- Source documents are available securely and instantly on screen, saving time and money in document retrieval.
- PaperSavePlus seamlessly works the way you work with QuickBooks®.
- Filing cabinets and outside document storage are virtually eliminated.
- All paper files are imaged and stored electronically, helping your business recover from even the worst disaster.

PaperSavePlus and QuickBooks® Financial Software work together to help simplify your business management. QuickBooks® 2006 Financial Software helps you get more done faster, with a new Home page, simplified Customer and Vendor Centers, and sophisticated business planning tools.
